

Mini Crusher

Lightweight design for operating machine
 One cylinder system for powerful crushing and speed
 High strength and wear resistance materials for reliability
 Full line-up for mini excavator

Mini Shear

Impactful crushing power for work efficient
 Trunnion mounting cylinder for compact design
 Full line-up for mini excavator

Multi Processor

Lightweight design for stability of operating machine
 Speed up valve for fast work
 Powerful and speedy work with 2 cylinder system

Pulverizer Fixed

Wide jaw opening for work efficient
 Trunnion mounting cylinder for compact design
 Speed up valve for fast work

Pulverizer Rotating

360 hydraulic rotating
 High strength and wear resistance materials for reliability
 Speed up valve for fast work

Hydraulic Breaker

DECO
